

TEST REPORT

TEAM: 8

TEAM MEMBERS Shivani Tamkiya Aniruddha Saxena, Dipal Bhandari, Rahul Prajapati

Test Case	Pass/Fail	Expected Output	Actual Output
Date of Test: 11/15/2018			
Reason: Initial Testing			
1	Fail	crew sam is added succesfully	Initial condition not satisfied
2	Fail	flight is added sucessfully	Initial condition not satisfied
3	Pass	manager is succesfully logged in	manager is succesfully logged in
4	Fail	Qualifying a co-pilot to pilot and adding it to a flight.	Initial condition not satisfied
5	Fail	changing the crew members assigning to an existing flight	Initial condition not satisfied
6	Fail	manager is successfully registerd	Initial condition not satisfied
7	Fail	ouput all the changes made through query made by manager	Initial condition not satisfied
8	Fail	flight in the air should not be cancel	Initial condition not satisfied
9	Fail	Cannot add a crew to flight whole is not eligible to work	Initial condition not satisfied
10	Fail	Creating a flight without sufficient crew member at the airport	Initial condition not satisfied
11	NA	NA	NA
12	NA	NA	NA
13	NA	NA	NA
14	NA	NA	NA
15	NA	NA	NA
Date of Test: 12/1/2018			
Reason: Regression Testing after Corrective and Perfected maintainance			
1	Fail	crew sam is added succesfully	Initial condition not satisfied
2	Fail	flight is added sucessfully	Initial condition not satisfied
3	Pass	manager is succesfully logged in	manager is succesfully logged in
4	Fail	Qualifying a co-pilot to pilot and adding it to a flight.	Initial condition not satisfied
5	Fail	changing the crew members assigning to an existing flight	Initial condition not satisfied
6	Pass	manager is successfully registerd	manager is successfully registered
7	Pass	ouput all the changes made through query made by manager	output all the updates by manager
8	Fail	flight in the air should not be cancel	Initial condition not satisfied
9	Fail	Cannot add a crew to flight whole is not eligible to work	Initial condition not satisfied
10	Fail	Creating a flight without sufficient crew member at the airport	Initial condition not satisfied
11	Pass	Adding a new airport to the database	New airport added to the database.
12	Fail	The system doesnot allow to add a new flight without sufficient crew members	Initial condition not satisfied
13	Fail	The system cancels the flight successfully and the crew is assigned to it is now available	The flight is cancelled and crew is set free.
14	Pass	Crew login with thier credentials , and place themselves with an initial airport.	Crew place themselves with an initial airport
15	Fail	The app successfully calculates the estimated touchdown time	Initial condition not satisfied
